

A photograph of two young women in a classroom. The woman in the foreground, with short blonde hair, is smiling and looking towards the right. The woman in the background, with dark curly hair, is also smiling and looking towards the right. The wall behind them is covered with several small, framed photographs. The year '2022' is written in red text in the top right corner.

Slide Subtitle

Microsoft PowerPoint is a presentation program,^[7] created by Robert Gaskins and Dennis Austin^[7] at a software company named Forethought, Inc.^[7] It was released on April 20, 1987,^[8] initially for Macintosh computers only.^[7] Microsoft acquired PowerPoint for about \$14 million three months after it appeared.^[9] This was Microsoft's first significant acquisition,^[10] and Microsoft set up a new business unit for PowerPoint in Silicon Valley where Forethought had been located.^[10]

PowerPoint became a component of the Microsoft Office suite, first offered in 1989 for Macintosh^[11] and in 1990 for Windows,^[12] which bundled several Microsoft apps. Beginning with PowerPoint 4.0 (1994), PowerPoint was integrated into Microsoft Office development, and adopted shared common components and a converged user interface.^[13]

PowerPoint's market share was very small at first, prior to introducing a version for Microsoft Windows, but grew rapidly with the growth of Windows and of Office.^{[14]:402–404}

Since the late 1990s, PowerPoint's worldwide market share of presentation software has been estimated at 95 percent.^[15]
